

**ASTS**  
Simplifying inventory management.

## ASTS Products & Services-- GSA Pricing

The ASTS software is a Perpetual, Named User License. The Perpetual License entitles the customer to own a license to the ASTS software for the entire life of the product. The license is required for a customer to maintain the ASTS Annual Maintenance Subscription (which includes new versions of the software, updates, service packs and unlimited telephone/email technical support). In the Named User License model, the licenses track the total number of users in the ASTS database. For example, a 50 Named User License allows 50 users to use ASTS, all of them concurrently, if required.

Description	GSA SIN	GSA Price
<b>ASTS Standard Edition</b> Web-enabled database. Microsoft SQL Server 2000 (or greater) and Internet Information Services Web Server 6.0 (or greater) is required and not included in cost.
